I tried the suggestions in the following thread. But no success. I? A: i guess the "?" in this menu is the master view and if you have closed the window and it is not in front, the program must reopen it and the Menu option goes. I closed the program with the "?" option selected, created a new project, selected Video and when the window has opened I released the F12 key to see the View Sliders. Now the menu "?" is active. I closed the Video window, opened the Layout menu, selected Video and you should have "?" options. A: I just use this solution: in the video interface is an icon like "F13". Now, press this icon and all the menus are visible. (dont know if this is the correct english name) Q: Общее правило при переводе прилож
